

View ultrasound images, quickly create complete reports, and share images with the patient on their smartphone. Anywhere. Anytime. Instantly.

The Studycast system is an end-to-end solution that streamlines and simplifies your whole imaging workflow.

- View images and loops in a powerful, responsive viewer
- Quickly document findings in study-specific worksheets with automatic calculations
- Easily generate configurable high-quality reports with growth charts and study images
- Save frames from any loop and add them to the final report
- Share images and reports with patients and colleagues in seconds
- View, report, and share in a single intuitive workflow
- Works with any ultrasound device and any EMR

The best part? You can do it all from anywhere with an Internet connection.

Tired of printing images and burning DVDs?

What if you could securely send images to the patient's smartphone during their appointment? With the Studycast system, sharing images has never been faster or easier.

Studies upload as soon as you complete the exam and are ready to view, interpret, and share in seconds. With just a few clicks, send the patient a secure link to download their images before they even leave the exam room.

No printing. No discs to burn. Just fast, secure image sharing.

How easy is that?

Features Designed Specifically for Women's Health Providers

Study-specific worksheets and reports for

- Breast
- Pelvic
- Obstetric

Obstetric reporting includes

- 1st, 2nd, and 3rd trimester reporting
- Dating and growth charts
- Biophysical profile
- Quick and comprehensive fetal well-being
- Fetal Echo worksheet and report

Plus, you can

- Manage multiple obstetric exams as a single case
- Automatically import findings and conclusions from a previous exam
- Quickly create and save templates you use often

The easiest IT solution you'll ever implement

The Studycast system is easy to implement, easy to use, and easy to manage

- Study images, patient demographics, and measurements move from your imaging device to the Studycast system automatically
- Study-specific worksheets allow you to build your report with fewer clicks
- Easily configure the worksheets with presets and customized findings statements
- View images and approve exams from your computer, iPad, or other tablet (fast!)
- Studies can be routed to your EMR or billing system automatically
- Customer support the way it should be – talk to a live person who can solve your problem in minutes, not days
- Our in-house development team releases software updates and enhancements every month
- Get it all without IT headaches – no hardware to maintain, no software to update, and no data storage to manage

And it comes with

- **Fast, easy implementation** – Be up and running in a couple of weeks
- **Unlimited training** – On day one or day one thousand
- **Unlimited live support** – Talk to our outstanding support team Mon-Fri, 9am-8pm ET
